

HIGH-BUILT SEMI-PRO TRAILER

MJÖLNIR HBS

The strongest tandem trailer on the market

What's that rumbling in the distance? It's the preferred weapon of the thunder god Thor, MJÖLNIR.

Some believe MJÖLNIR is a hammer, but in reality, it's the market's strongest and most durable semi-professional high-bed trailer.

Now you can have the same robust companion for heavy loads, challenging terrains, and years of wear. We can't promise you'll level mountains with it like Thor did in the legends.

Still, MJÖLNIR HBS is built by experienced professionals to endure years of journeys—both at work and in private.

MJÖLNIR is incredibly sturdy – just like all VIKING trailers are known to be. The chassis features a robust conical drawbar that would impress even the dwarf-smiths Brokkr and Sindri.
